Dr. W.F. Bodmer
Department of Genetics
Cambridge, England

Dear Dr. Bodmer:

I'm sorry if we did not manage to answer all the questions in your letter of April 11 before now. I think you will have heard concerning most of them. In particular you should have received your exchange visitors visa certificate sometime ago.

I would like to urge you to try to make some other arrangements if you possibly can to defer your arrival here until mid September. However, if you can find no satisfactory way of doing this, and can put up with some rather crowded and confused circumstances, we will try to make some arrangement for you in early or mid August.

I will try to have an early installment of your fellowship stipend ready for you within a couple of days of your arrival at Stanford.

I'm particularly glad to hear that you have been able to arrange to take the course at Cold Spring Harbor which should be a very valuable preparation for your work here.

Yours sincerely,

Joshua Lederberg
Professor of Genetics
